1:00-2:00pm

“Management of Patients with Persistent Postural Perceptual Dizziness”

Patrick McCormick, DPT, NCS

St. Luke's University Hospital – Bethlehem
Priscilla Payne Hurd Education Center
Lecture Room 2

Objectives

By the end of this course attendees will:

1. Given a patient case example and examination findings participants will be able to distinguish a diagnosis of persistent postural-perceptual dizziness from other possible causes of dizziness
2. Given a case example of patient history participants will be able to select appropriate outcome tools to evaluate patients with persistent postural perceptual dizziness
3. Participants will be able to design a treatment program for a patient with persistent postural perceptual dizziness
4. Participants will be able to justify cognitive behavioral therapy for a patient with persistent postural perceptual dizziness
5. Describe roles of medical management, psychological management, and vestibular rehabilitation in treatment of persistent postural perceptual dizziness

This course is approved by the New Jersey Board of Physical Therapy Examiners for 1.0 continuing education credits. NJBPTE Approval # _____

This course is pre-approved by the Pennsylvania Board of Physical Therapy as it is approved by the New Jersey Board of Physical Therapy Examiners, one of the jurisdictions of the Federation of State Boards of Physical Therapy (FSBPT).
