

Course Overview

This course aims to provide an up to date review on Head and Neck Cancer Management. We will cover topics of dysphagia, treatment toxicity, outcome measurement, and staging. Medical professionals, including physical therapists, should expect to achieve enhanced clinical reasoning and diagnostic/referral skills for patients with or without referral.

Course Schedule

12:30-12:45	Dysphagia
12:45-1:00	Treatment Toxicity
1:00-1:15	Outcome Measurement
1:15-1:30	Staging
15 min	Quiz (delivered via My E-Learning)

Course Objectives

By the end of this course attendees will:

1. Identify the techniques of direct and indirect dysphagia exercises throughout the course of treatment.
2. Identify treatment toxicities in the early and late stages
3. Discuss the utilization of outcome measures used in this population
4. Discuss TNM Staging System per AJCC regarding the site and severity of cancer.
